Our school initiatives are on track to meet or exceed our targets

During 2018, we focused on maximising the benefits of this funding for our students. After reviewing our 2018 *Investing for Success* agreement, it is clear that we are on track to meet or exceed our targeted student outcomes. We continue to implement our initiatives to ensure that every student succeeds.

Initiatives implemented include:

- Developing and implementing a whole school approach to teaching writing (aligned to and including engagement with the *Seven Steps to Writing* program)
- Embedding the culture, climate, processes and protocols of classroom observation and feedback to support professional development and encourage reflective practice.
- Developing a shared understanding of 'Data Literacy' and supporting teachers and leadership team to effectively use data to inform targeted teaching, particularly in the area of reading and writing.
- Providing ongoing support to classroom teacher and teacher-aides to implement and develop data driven strategies in order to improve student outcomes.
- Maintaining an uninterrupted Literacy Block across the school to ensure consistency of pedagogical practices, as outlined in the Pedagogical Framework.
